

David Marín Castillo

Lima, Perú | +51 997 437 894 | davidmarin9@icloud.com | linkedin.com/in/davidmarin/

Professional Profile

Specialist in backlog control, SLA compliance and design of KPI, OKR and NCT frameworks, applying Lean, Kaizen and Six Sigma to drive continuous improvement.

Key Skills

SAP MM | Odoo | ERP / MRP | TMS | WMS | Inventory Management | Backlog | SLA | OTIF | KPI | OKR | NCT | Lean | Kaizen | 5S | BPM | Draw.io | Bizagi | Agile | Scrum | Power BI | Looker Studio | Excel Avanzado | Scrum

Professional experience

Operations & Logistics Consultant | Spray Wash | 09/2024 – 04/2025

Key features

- I designed and implemented the operational structure of Purchasing, Warehouse and Production, defining roles (picking, packing) and approval routes in Odoo (ERP).
- I modeled processes (BPM) and structured workflows in Draw.io and Bizagi for purchasing, receiving, storage and dispatch.
- Parameterized and validated Inventory and Purchasing modules in Odoo (QA/UAT), adjusting stock alerts and approval rules.
- Defined and implemented KPI, OKR and NCT frameworks (OEE, OOE, inventory turnover, SLA) and developed dashboards in Looker Studio for real-time monitoring.
- I planned production with batch logic based on forecasts, optimizing cycles and resource use.

Measurable achievements

- I put the Inventory and Sales modules into operation in Odoo, eliminating a backlog of obsolete orders.
- Reduced picking and packing times by **25%** through layout redistribution and clear role definition.
- Increased plant productivity by **30%** by adjusting production cycles according to OEE/OOE indicators.

Operation Manager | Moons Perú | 05/2022 – 06/2024

Key features

- I managed production and laboratory logistics of dental aligners (3D printing, post-process and distribution) under Odoo.
- I monitored order backlog and guaranteed internal/external SLAs, applying Agile/Scrum and Kanban methodologies.
- Coordinated multidisciplinary teams and planned continuous improvement projects with project management tools.
- Created executive dashboards in Power BI and Excel to track KPIs, OKRs, and NCTs.

Measurable achievements

- Implemented OKR, KPI and NCT framework, reducing production costs by **15%** and improving delivery times by **20%**.
- I achieved a sustained 98% OTIF , supported by visual reports and daily follow-up meetings.
- Accelerated monthly reporting by **70%** using RPA and scripts in the ERP.

Coord. Sourcing | Comercializadora S&E Peru | 11/2018 – 05/2022

Key features

- I planned supply for natural gas networks, coordinating 11 itinerant trucks and managing cyclical counts in ERP.
- Supervised receiving, storage and dispatch, controlling backlog and measuring productivity KPIs.
- Prepared and followed purchase orders, ensuring optimal stock levels and compliance with replenishment SLAs.
- I implemented ISO 9001, defining procedures, control formats and supplier improvement plans.

Measurable achievements

- Reduced logistics costs by **10%** through route optimization, load consolidation and improved warehouse layout.
- Reduce stockouts by **15%** thanks to proactive backlog management and lead time analysis.
- Achieved 100% compliance in ISO 9001 internal audits by standardizing processes and documentation.

Integrated Pest Control Coordinator | Granfundación | 06/2017 – 11/2018

Key features

- Planning and coordination of gardening services, integrated pest control and tank washing, managing the order backlog and ensuring compliance with service SLAs.
- Development of findings reports and proposals for continuous improvement, applying KPIs of quality and operational efficiency.
- Analysis of administrative and operational processes, implementing standardized flows and optimizing resources of the team in charge.

Measurable achievements

- Improved internal customer satisfaction by 15% by standardizing report formats and conducting training for technical staff.
- Decreased supplier costs by 10% by negotiating framework contracts and consolidating purchase volumes.
- Reduced response times to pest control requests by 20% by creating a criticality-based prioritization system.

Academic Background

Master of Project Management | ESAN | 11/2026

Industrial Engineer | Universidad Politécnico Grancolombiano | 03/2022

Logistics Management Technologist | SENA (Colombia) | 08/2018

Relevant Certifications and Courses

Diploma in Project Management | Polytechnic of Colombia | 02/2022

Scrum Fundamentals (CM-SFC) | CertiMind | 07/2024

Import & Export Management | ISIL | 09/2023

Using Excel and Access for Administrative Application Development | SENA | 05/2015
